## Greetings From KHA!

Kingston Hill Academy is an award-winning public charter elementary school located in Saunderstown, Rhode Island. Our mission is to provide students with the opportunity for an inclusive, individualized, and challenging education curriculum that supports them to reach their full potential. Our success has been tied to the commitment of many community partners which help us to ensure that our students have all of the resources that they deserve.

We are reaching out to you today to determine if you might be willing to support our annual campaign. We have a campaign goal of \$10,000 and have just begun our outreach efforts. Early givers will help us to build momentum around this effort.

We are looking for families and like-valued businesses to provide tax-deductible donations to help us meet the following goals for our students and staff.

- Offset the cost of field trips/school activities
- Enhance and expand elective project-focused offerings and supplies
- Support professional development and consulting services

All family sponsors and business sponsors will be named in our outreach to our staff, families, and our community of our 260 students. We are open to additional types of recognition for our partners and would love to know what would be most mutually beneficial to your organization. Every donation will serve as a signal to our staff, youth, and their families, of your dedication to lifelong learning.

We at KHA Thank you!

*Ms. Marcella Terranova Clark*
